📍 Shiraz, Fars, Iran

Profile Summary

Full Stack Developer with over 7 years of experience in developing websites and applications using .NET Core and ASP.NET Core. Started programming in 2010 with line-following robots and later learned C# and object-oriented programming. Specialized in designing and developing Content Management Systems (CMS) and Customer Relationship Management (CRM) systems, improving system performance by up to 25% using Clean Architecture and microservices. Experienced in developing RESTful APIs and implementing Dynamic Permission systems for secure and scalable applications. Proficient in building Progressive Web Applications (PWA) and utilizing technologies like Blazor, MVC, and Razor Pages. Skilled in optimizing databases such as SQL Server and MySQL. Familiar with blockchain technology and eager to work on related projects. Currently advancing knowledge in emerging technologies like MAUI and ML.NET.

Education

Bachelor of Computer Science

Branch: Software Development

Institute/University: Islamic Azad University

Shiraz, Fars, Iran

2019 - Present

Skills

C#

Frameworks: .NET, ASP.NET Core,
Blazor, MVC, Razor Pages

Front-end development

Back-end development

Architectures: Clean Architecture,
Microservices, RESTful API, OpenAPI

Databases: SQL Server, MySql , Sql Lite

Tools: Visual Studio, Visual Studio Code,
Git, Azure DevOps

Testing: xUnit, NUnit, Moq, Postman

API integration

JavaScript

Agile methodologies

Problem-solving

Work Experience

Full Stack Developer C# .Net Core

Parsia Afzar comapny

Shiraz, Fars, Iran

November 2020 - July 2022

Tasks and Achievements

- Designing and developing content management systems (CMS) using ASP.NET Core MVC and Entity Framework Core
- Using clean architecture, microservices, RESTful API and OpenAPI to increase the performance and maintainability of the codes
- Applying Authentication and Authorization for high security of the systems
- Using SQL Server and SQL Stored Procedures to store the data of the systems

.NET Developer

Nikan

Shiraz, Fars, Iran

July 2018 - December 2018

Tasks and Achievements

- Working on pwa for a built website and connecting to api

.NET developer

Rasta

Shiraz, Fars, Iran

December 2018 - October 2020

Tasks and Achievements

- Designing and developing customer relationship management (CRM) using ASP.NET Core MVC and Entity Framework Core
- Writing Front-end codes using HTML, CSS, JavaScript and jQuery
- Using Git and Azure DevOps to manage versioning and delivery of the projects

Projects

NewsWebsite

For: free

2019

my open source news website is cms with .net core 5 you can find it in my GitHub

Link: <https://github.com/SirTypeOfficial/NewsWebsite>

Bookshop

For: free

2019

my open source Bookshop website is cms with E-commerce on .net core 5 you can find it in my GitHub

Link: <https://github.com/SirTypeOfficial/BookShop>

ParsiaAfzar CMS

For: Parsia Afzar

2021

this is a cms for paria afzar it's not open source and it's private in my GitHub

- dynamic role access and dynamic user access
- all content is dynamic and can change

Link: <https://github.com/SirTypeOfficial/ParsiaAfzarCore>

Dynamic work flow

For: Parsia Afzar

this is a work flow system for paria afzar it's not open source and it's private in my GitHub

- dynamic role access and dynamic user access
- all forms and work flows are dynamic and can change by administrator or ...
