PROFILE

Highly motivated Senior Full-Stack .NET Developer specializing in C#, ASP.NET Core, Blazor, and MAUI. Passionate about building robust, scalable web applications, leveraging Clean Architecture and Microservices for high-performance solutions. Expertise spans the full development lifecycle: designing RESTful APIs, crafting engaging UIs, and optimizing databases.

EXPERIENCE

Freelance Full-Stack Developer & Emerging Tech Enthusiast

Upwork & Personal Projects, Remote 2022 – Present

- Developing cross-platform applications using .NET MAUI, Blazor WebAssembly, and ASP.NET Core with modern architectural patterns.
- Collaborating with various clients on project-based engagements, delivering tailored software solutions.
- Exploring and implementing blockchain solutions, including smart contracts with C#.
- Developing n8n workflow templates for AI agents, enhancing automation capabilities.
- Learning and applying skills in AI, and trading (converting trading strategies into automated bots).

Senior Full-Stack Developer (.NET)

ParsiaAfzar Company, Shiraz 2020 – 2022

- Provided technical support for workflow projects for electricity distribution companies in multiple cities.
- Developed the company's official website using a .NET Core CMS with an MVC architecture.
- Led the development team for a new dynamic workflow project, utilizing a Vue.js front-end and a .NET API back-end with a microservice architecture, RabbitMQ, CQRS, and DDD. Successfully delivered the project before leaving the company.

Other Skills

- Blockchain Development
- API Integration
- AI/ML (Python)
- Automated Trading (MQL4/MQL5)
- Authentication
- Authorization
- Workflow Management
- PWAs
- UI/UX Design

Languages

- English (Professional Working Proficiency)
- Persian (Native)

EXPERIENCE

Project Manager / .NET Developer

Rasta International Finance, Shiraz

2019 – 2020

- Managed a CRM project and a system for network-based investment.
- Implemented SEO and digital marketing strategies for the organization.
- Introduced and managed Git and Azure DevOps within the organization, utilizing Scrum and Agile methodologies.
- As .NET Developer, developed a RESTful API to connect with a PWA front-end for a beauty salon reservation and appointment system, strengthening skills in API development.

.NET Developer

Nikan Company , Shiraz

2018-2019

- Developing a RESTful API to connect with a PWA front-end for a beauty salon reservation and appointment system, strengthening skills in API development.
